IFHE POSITION STATEMENT ON HOME ECONOMICS

Home Economics is a field of study and a profession, situated in the human sciences that draws from a range of disciplines to achieve optimal and sustainable living for individuals, families and communities. (2008)

USING APPRECIATIVE INQUIRY TO BUILD A STRONGER FUTURE

Appreciative Inquiry is a strength-based, capacity building approach to transforming human systems toward a shared image of their most positive potential by first discovering the very best in their shared experience (Barrett & Fry, 2008, p.25).

USING APPRECIATIVE INQUIRY TO BUILD A STRONGER FUTURE

It is an **approach to organisational change** which focuses on **strengths** rather than on **weaknesses**.

S- Strengths

O- Opportunities

A- Aspirations

R- Results

BUILDING YOUR ROADMAP FOR 21ST CENTURY LEARNING ENVIRONMENTS

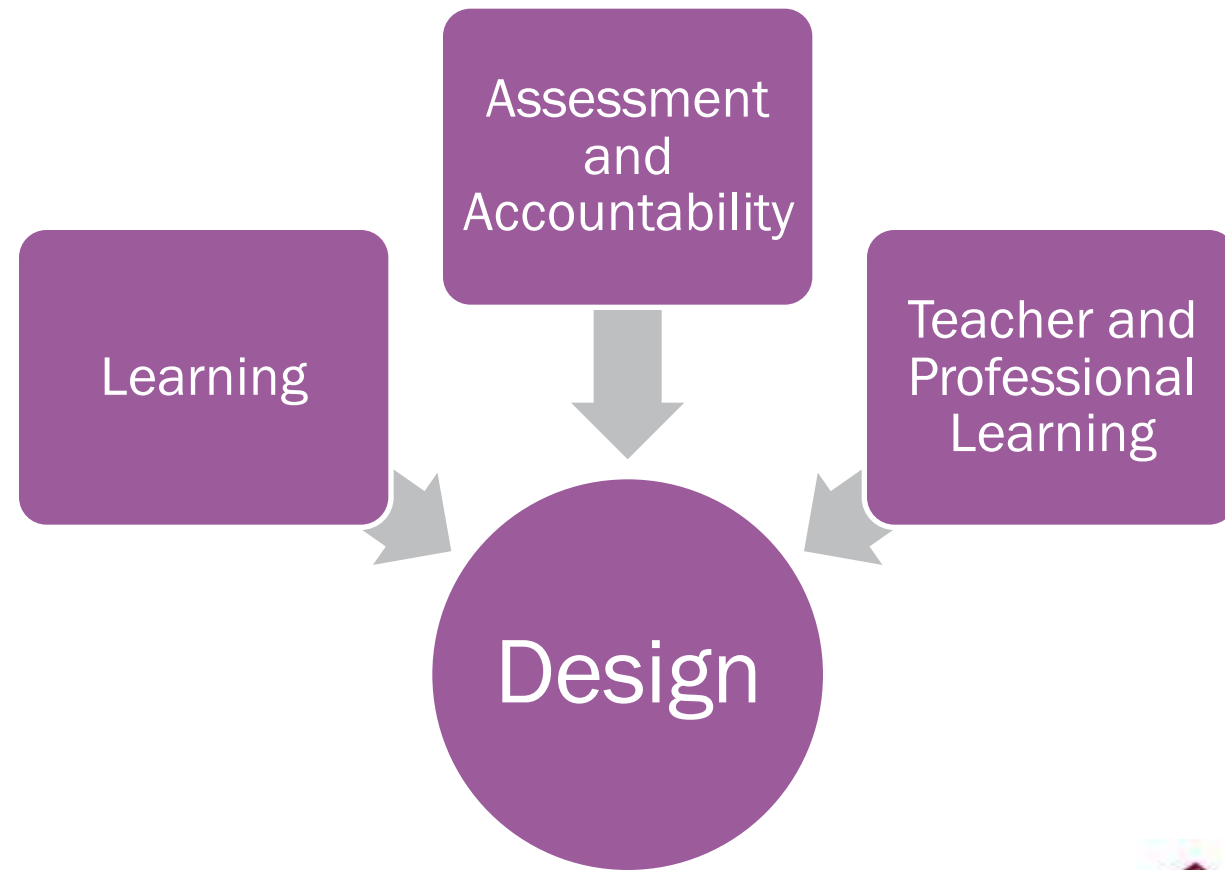

A Planning Tool for Education Leaders

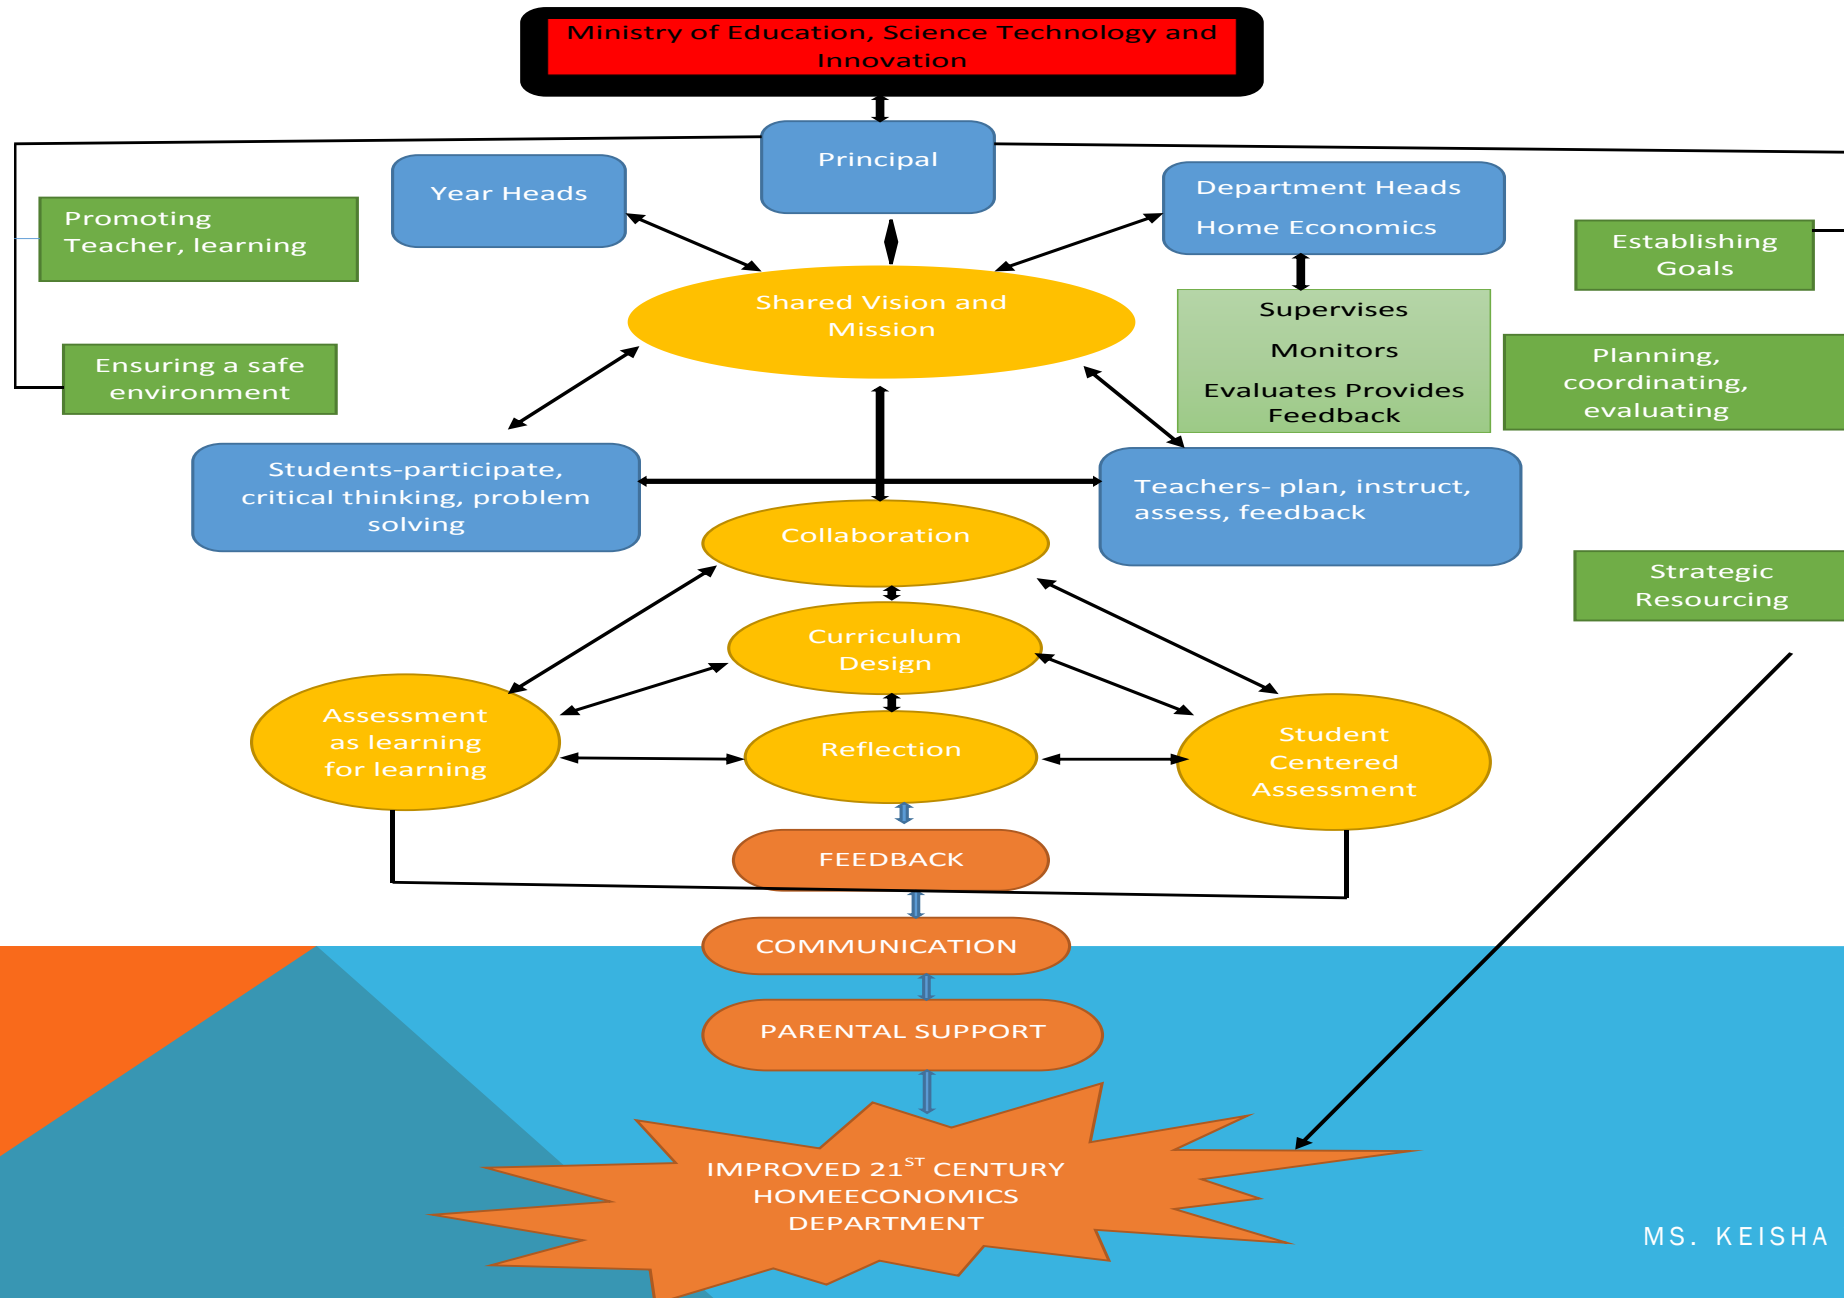

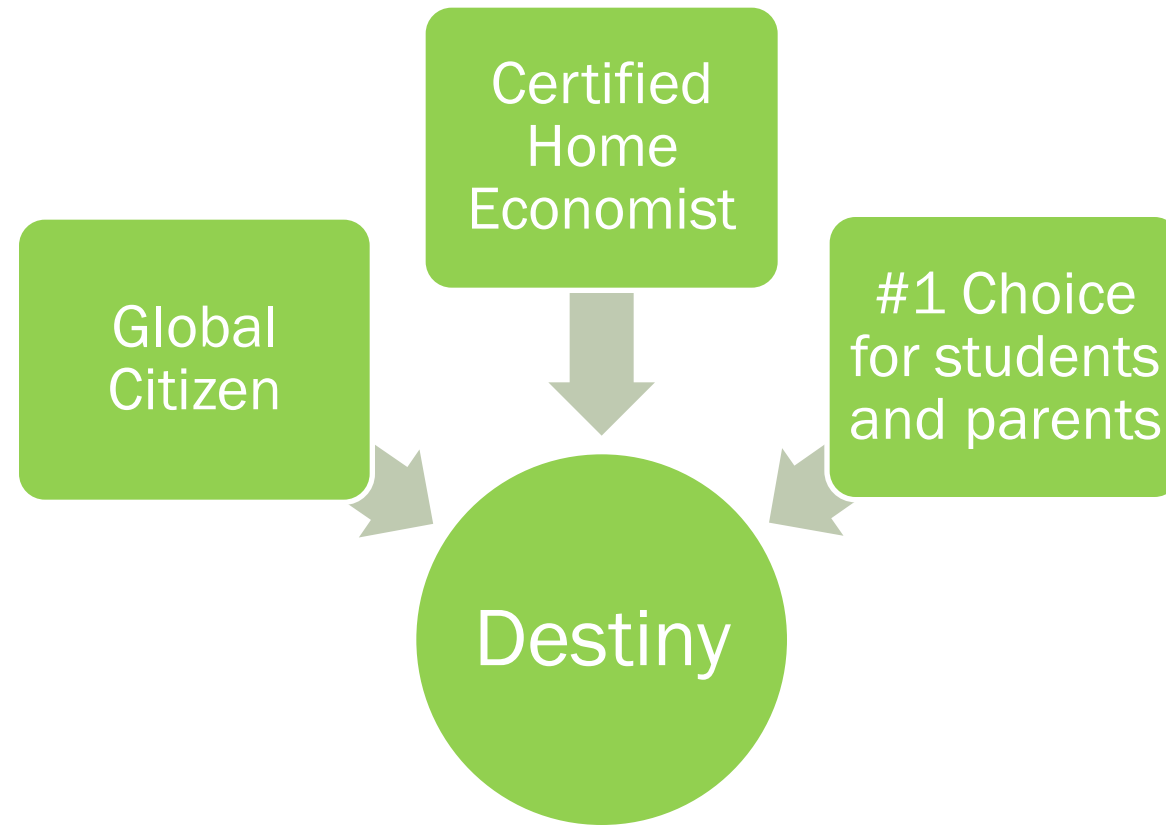

Blue-Print of the Educational Roadmap of the Home Economics Department for the 21st Century

“Teachers are Exemplars and Not Examples”

Mrs. Ada Straughn, Retired Barbadian Educator

HOME ECONOMICS ON THE MAP

We are more than homemakers
Innovators we are .
We are the drivers of the family
Creating vision for success
Managing the home's finances
Even NSRL is put to the test.

Being fashionable is who we are
I'm sure you can agree,
Using our skills from clothing and textiles
Recycling threads, haute couture and ingenious designs
Yes, everyone knows we are indeed trendy.

HOME ECONOMICS ON THE MAP

But for us, one of the most important things we do,
Is showing each and everyone how to be the best you.
Our focus on good nutrition and health
Is what this school, country needs,
It's vital, so important in combating non-communicable disease.
From portion control, modification of recipes to having a balanced meal
Is what we always suggest,
Eating in moderation and indigenous foods, that's best!
Yes, engaging in exercise will increase your daily zest.

HOME ECONOMICS ON THE MAP

So to be 21st century ready
Embrace what we have to say,
Healthy body, healthy mind,
The keys to quality education,
Daily living our core values and the 4r's we must promote,
As we fuel our bodies, our minds to educate our students.

But to encourage future leaders and to help solve life's ills,
We must foster the spirit of entrepreneurship,
Building sustainable businesses and visions
Is a goal we must adopt,
Being a global citizen and reaching for the stars,
With good communication and innovation,
Our subject,
Our students,
Our school will soar.
